

GET THE SUPPORT YOU NEED

With every year that passes, prostate issues become a growing concern for millions of men. Needless to say, it's critical that you take care of your aging prostate.

Dissatisfied with the limited efficacy of prostate supplements on the market, the scientists at Force Factor® formulated a more optimal solution using only the highest quality ingredients.

The result is TruFlow™, a premium prostate health remedy that helps you sleep soundly through the night, with fewer urges to use the bathroom, and deeper, more restorative slumber – plus better urinary flow throughout the day, and round-the-clock size support.

Now you can finally reduce discomfort and dribbling, get the rest you deserve, and improve your prostate health.

MALE VITALITY TRIFECTA

Complete the ultimate men's health stack by adding Force Factor's **Alpha King™** and **SCORE!™** to your TruFlow regimen for a prostate-safe boost of free testosterone and stiff jolt of passion to your sex life.

DIRECTIONS

Take 2 softgels daily, 30-60 minutes before bed.

THE LATEST SCIENCE FOR SUPERIOR RELIEF

Late night trips to the bathroom can leave both you and your partner feeling groggy in the morning. With a unique combination of compounds to help relieve the sudden urge to go, plus time-tested sleep ingredients to help optimize your circadian rhythm, TruFlow™ will help you wake refreshed and ready to tackle your day.

Two powerful blends address the #1 frustrating symptom of an aging prostate: having to get up at night to use the bathroom. The Flow Enhancement Complex™ contains beta-sitosterol, cranberry fruit extract, and traditional herbs to support urinary flow so you can fully empty your bladder for relief when you need it most.

The Rest and Relaxation Blend includes a precisely dosed 4mg of melatonin, plus gamma-aminobutyric acid (GABA), to help you sleep undisturbed by the annoying impulse to use the bathroom.

TruFlow's unique Prostate Size Support Matrix™, led by a scientifically studied 320mg of saw palmetto extract, helps maintain a normal prostate size, giving you peace of mind as you and your prostate age.
