

ADVANCED SUPPORT WHEN AND WHERE YOU NEED IT MOST

It's critical that you take care of your aging prostate. No man wants to suffer from unpleasant and inconvenient urges to urinate and frequent trips to the bathroom at night, which is what ignoring your prostate health can cause.

Force Factor® Prostate Advanced builds upon the robust formula that countless men have trusted for years. It does this by including additional premium, clinically validated ingredients to help you further reduce urges to urinate, minimize nighttime bathroom trips, fully empty your bladder, and promote a normal prostate size.

Each serving includes a fully substantiated dose of Vegapure® beta-sitosterol, saw palmetto extract, EVNolMax™ tocotrienol complex, lycopene from Lycopodium® tomato extract, and a proprietary cranberry extract called Flowens™, which has been clinically shown to improve the International Prostate Symptom Score by 25%.

Take control and Unleash Your Potential® with Force Factor Prostate Advanced.

DIRECTIONS

Take 3 tablets daily with a meal.

SUPERIOR INGREDIENTS FOR BETTER PROSTATE HEALTH

FLOWENS™ CRANBERRY EXTRACT

Flowens is a proprietary cranberry extract that has been clinically shown to improve lower urinary tract symptoms typically associated with prostate health. In fact, it showed a significant increase of 25% in the International Prostate Symptom Score, a measure of bladder emptying, frequency, intermittency, urgency, stream strength, straining, and nocturia.

BETA-SITOSTEROL

Beta-sitosterol has been clinically shown to help alleviate urinary symptoms associated with an aging prostate.

SAW PALMETTO

Saw palmetto is rich in specific fatty acids that may help block the enzyme responsible for converting testosterone to dihydrotestosterone, or DHT, helping to promote a normal prostate size. It may also help improve urinary symptoms associated with an aging prostate.

EVNOLMAX™ TOCOTRIENOL COMPLEX

Tocotrienols are a specific subset of the vitamin E family. They are potent antioxidants and free radical scavengers.

LYCOBEADS® LYCOPENE

Lycobeads® is a premium tomato extract that is high in lycopene — believed to be important for overall prostate health — as well as additional carotenoids and phytonutrients.
