

If you suffer from body odor, bad breath, or flatulence, you may feel self-conscious in social settings. Offensive smells are more than just embarrassing, though. They're a sign that your digestive system is converting a portion of the food you eat into toxic chemicals. **Deodorex**® features Champex® — a patented champignon mushroom extract that reduces these odor-causing toxins where they originate.* Clinical studies show that Champex®:

- Reduces body odors by up to 60%* (500 mg/day)
- Inhibits the chemicals that cause bad breath* (200 mg as an oral rinse)
- Purifies the blood of ammonia* (400 mg)
- Supports kidney health* (2,000 mg)
- Increases levels of beneficial bacteria* (500 mg/day)
