

USAGE: Take 1 softgel up to 3 times per day with food or as directed by your qualified healthcare professional.

Q-absorb® is a completely natural propionyl-L-carnitine delivery system clinically shown to increase Co-Q10 levels up to 400% (2.0x) over baseline and 3-4 times better absorbed than chewable Co-Q10 tablets.*

Co-Q10 supports heart function as a component of the electron transport system needed for ATP (i.e., energy production within the cells, and as an antioxidant protects mitochondrial membranes and cholesterol from oxidation.*

Jarrow Formula® Q-absorb® restores Co-Q10 levels reduced or depleted by the use of statins.*

Jarrow Formula® Co-Q10 is derived from fermentation and consists only of the natural trans configuration, the same as is synthesized in the human body. Jarrow Formula® supports clinical research on Coenzyme Q10.

Keep out of the reach of children.
