AstraGin® is a registered trademark of NuLiv Science USA, Inc.

Smarter is Better

Bioavailability Boost

Our tetra-hydro curcuminoids (THCs) are more quickly bioavailable than regular curcumin. We've added plant-based AstraGin® to help increase the absorption of curcumin by 90%.*

More Potent

THCs are more potent than regular Curcumin and they're better free radical fighters than Vitamin C.*

Healthier Source

Our formula is suspended in black cumin seed oil, a powerful antioxidant that helps to naturally increase the absorption of curcumin.*
