UP! UP! UP! Your children's height, IQ, eyesight!
Add essential nutrients during your children's growth phase!
TRI UP is specially formulated to enhance your children's growth!
Their brains are constantly stimulated and their vision deteriorates.
To add to their height, their IQ development and to enhance their
growth, TRI UP contains CGF and pollen extract; to help their
eyesight, TRI UP contains blueberry and blackcurrant, the source of
anthocyanin; to stimulate your children's brain, TRI UP contains
DHA and Ginkgo extract.
TRI UP is in ball form, making it easy to swallow for young children.
203g / about 450 balls (3 month supply)
Take 5 balls anytime during the day.

*The Food and Drug Administration have not evaluated these statements. This product is not intended to diagnose, treat, cure or prevent any disease.

During these critical years, our children become taller before our eyes, their
eyesight during this critical growth stage, TRI UP combined 6 key ingredients
to help their eyesight, TRI UP contains blueberry and blackcurrant, the source of
anthocyanin, and Ginkgo extract.
