

MUSCLE FEAST

Muscle Feast CarnoSyn® Beta Alanine is a version of the amino acid alanine which serves as the precursor to carnosine (β-alanyl-L-histidine) in skeletal muscle. Supplementing with Beta Alanine is a highly effective means of increasing muscle carnosine content. Increased muscle carnosine helps buffer the negative side effects of hydrogen ion accumulation in muscles as exercise intensity increases.

SUGGESTED USE:

As an adult dietary supplement, take one serving (2.8g) in 6-8 ounces once per day or as directed by your doctor.

MIX 1 LEVEL (2.8g) SCOOP WITH 6-8 OZ. WATER OR BEVERAGE OF CHOICE UP TO 3 TIMES A DAY.

GLUTEN FREE / SOY FREE / NON-GMO
