

Statin drugs deplete the body of CoQ10, hinder synthesis of vitamin K₂, and block the protein glutathione. This formula addresses these nutrient depletions with:

CoQ10-SR, with 24-hr sustained release, to prevent CoQ10 deficiency, which can cause muscle discomfort in some statin users*

Vitamin K₂, to protect arterial elasticity, as demonstrated in clinical trials on MenaQ7®*

Selenium, to restore healthy levels of glutathione - the body's master antioxidant*

Vitamin D₃, to correct low vitamin D levels, linked to statin-induced muscle discomfort*

MenaQ7® is a registered trademark of NattoPharma ASA.
MicroActive® is a registered trademark of BioActives LLC.
