Digestive Advantage®

PROBIOTIC SURVIVES STOMACH ACID

100X BETTER*

WHY PREBIOTIC FIBER + DAILY PROBIOTIC?

Digestive Advantage Prebiotic Fiber + Daily Probiotic includes 2 ingredients ideal to promote better digestive health! The Prebiotic works naturally with Probiotics and it supports the growth of healthy bacteria. Probiotics are good bacteria that promote digestive health and help reduce minor abdominal discomfort and occasional bloating. With continued use, **Digestive Advantage Prebiotic Fiber + Daily Probiotic** is ideal for long-term digestive support.*

WHY USE DIGESTIVE ADVANTAGE?

Many probiotics don't survive through the stomach's acid. **Digestive Advantage** does! It survives stomach acid **100X BETTER***; one serving a day delivers more live good bacteria to your digestive system than leading probiotics and yogurts to naturally support your digestive health.*

WHY DOES DIGESTIVE ADVANTAGE SURVIVE?

Only **Digestive Advantage** uses BC³⁰, a unique patented probiotic, that is **naturally protected by a protein shell**. A natural protein shell protects our probiotic allowing it to survive stomach acid so more live good bacteria can get to your digestive tract and reach the intestines, where you need them most. Probiotics in your intestines promote a healthy digestive and immune system.*

★ THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.

*Based on survivability testing vs. yogurts and leading probiotics including a high potency probiotic brand offering 50 billion live cultures.

Digestive Advantage®

PROBIOTIC SURVIVES STOMACH ACID

100X BETTER*

Studies reveal that the single strain of probiotic used in **Digestive Advantage** survives 100x better than leading probiotics and yogurts so it can deliver good bacteria where you need it.*

GUARANTEED for purity, freshness and labeled potency.
