

percepta®

Natural plant-based memory support*

The first nootropic to target the real reason we lose memory as we age*
Contains exclusive patented PTI-00703® cat's claw and MemorTea®
percepta® 15 years of scientific studies and exclusive patented ingredients

Studies show our brains begin accumulating plaques & tangles in early adulthood that leads to normal age-related loss of memory and focus. Percepta® is believed to be the world's first nootropic to potentially prevent and reduce plaques & tangles in the normal aging brain.*

Patented PTI-00703® cat's claw and MemorTea® for memory support*

Cat's claw (*Uncaria tomentosa*) is a woody vine found in the Amazon rain forest. PTI-00703® is our proprietary source of cat's claw identified for plaque & tangle reducing activity.*

MemorTea® is our proprietary source of Oolong tea (*Camellia sinensis*) identified for plaque & tangle reducing activity.*

Percepta® is our proprietary blend of PTI-00703® cat's claw and MemorTea® to produce the world's first nootropic to target plaques & tangles.*

Developed by renowned brain researchers, Dr. Alan Snow and Dr. Rudolph Tanzi

Dr. Alan Snow is Founder & CEO of Cognitive Clarity Inc. and former Research Associate Professor of Pathology at University of Washington in Seattle, where he was an Alzheimer's Disease Research Center project team leader. He has published extensively and is an inventor on over 340 issued patents, and is a recipient of 18 National Institute of Health grant awards.

Dr. Rudolph Tanzi is co-founder and Chief Scientific Advisor of Cognitive Clarity Inc. and serves as Professor of Neurology at Harvard University. Dr. Tanzi co-discovered all three familial Alzheimer's genes and published over 500 articles. In 2015, he was named "TIME Magazine Most Influential People in the World" and has co-authored the best sellers "Super Brain", "Super Genes" and "The Healing Self."

Percepta®: a natural plant-based nootropic

- Proprietary blend of patented PTI-00703® cat's claw and MemorTea®
- Targets brain plaques & tangles associated with normal age-related memory loss*
