

MILLECOR

PRO7 PROTEIN BLEND

MILLECOR® PRO-7 combines seven different proteins to fuel your body for a full four hours. Proteins are digested at different rates; by combining different proteins, you enjoy an immediate, medium, and extended source of nutrition as your body breaks protein down into amino acids. MILLECOR® PRO-7 is rich in BCAAs and Essential Amino Acids and has Digestive Enzymes for maximum protein absorption.

MILLECOR® PRO-7 also includes an ideal ratio of protein, complex carbohydrates and healthy oils to support extended time-release of amino acids.

- **Immediate Release:** Whey Protein Isolate, Whey Concentrate & Glutamine Peptides are absorbed within 30 minutes after consumption.
- **Medium Release:** Egg Protein and Milk Protein Isolate fuels your body with amino acids for 1.5 hours (90 minutes). Egg is considered a perfect protein because it has the highest protein efficiency ratio.
- **Extended Release:** Micellar Casein and Calcium Caseinate take much longer to digest. You get a full 4 hour release of amino acids. This makes these proteins ideal for appetite control.

Suggested Use: Mix two rounded scoops with 10-12oz of water, milk, or your favorite beverage. Vary the amount of liquid for taste preference.

Allergen Warning: Manufactured on shared equipment that produces products containing milk, eggs, soybeans, wheat, shellfish, fish oil, tree nuts, and peanuts.
