

MUSCLE FEAST

Muscle Feast Micellar Casein is designed to digest slowly and provide you with a sustained increase in amino acids to prolong muscle protein synthesis. Micellar casein is isolated from milk by filtration, preserving the structural integrity of the protein molecule. This process further provides many biologically active compounds that have direct immune and physiological benefits. While our micellar casein is best taken before bed, it is also an ideal choice as a protein rich snack.

SUGGESTED USE:

Mix one serving (1 level Scoop) thoroughly into 6-10 ounces of water or beverage of your choice. We do not believe in using fillers in our micellar casein; we suggest using milk or milk substitute for better taste.

MIX 1 LEVEL (24g) SCOOP THOROUGHLY WITH 6-10 OZ. OR MORE WATER (OR BEVERAGE OF CHOICE).
