

SUGGESTED USE: Chew two softgels per day, preferably with meals. Intended for children age 4 and older.

Tasty DHA Supports Brain Health†

Recent research shows the important role the essential fatty acid DHA (docosahexaenoic acid) plays in the developing brain.† DHA is the first fatty acid used by the brain to form healthy cell membranes vital for cell signaling.† In addition, DHA makes up most of the fatty acid composition of gray matter and retinal tissue. A major component of fish oil, DHA is necessary for optimal neural development and visual health.†

Molecularly distilled and tested for purity, mercury, and other heavy metals in every batch. Our **Kids DHA** provides this essential fat from cold water fish in a chewable, orange-crème flavored softgel kids can enjoy.

CONTAINS NO wheat, gluten, milk, eggs, peanuts, tree nuts or crustacean shellfish.

Store in a cool, dry place.

We Guarantee Our Supplements for Potency and Purity
