Bio-tract® is a registered trademark of Nutraceutix Inc. The BIO-tract® delivery system is patented under US Patent No. 8,007,777. The US patent is in addition to four international patents for the novel BIO-tract® delivery technology. Stomach acids can destroy all of the probiotic organisms before they reach the intestinal tract where they can do their good work. Patented BIO-tract® caplets protect probiotics from gastric acid and offer controlled release for active ingredients ensuring that a significantly higher percentage of organisms reach the intestines alive.
