

GENIUS CAFFEINE is different than every other caffeine pill on the market because it's **sustained released, ultra-pure trademarked NEWCAFF™**. Normal caffeine is quickly absorbed, leading to a stimulating effect after consumption, which leads to energy fluctuations. Through a sustained release, microencapsulation technique, GENIUS CAFFEINE provides true sustained energy that stimulates thermogenesis, accelerating the rate at which your body burns calories.* It also helps to suppress the appetite for extended periods of time.*

DIRECTIONS: As a dietary supplement, take one (1) capsule three times a day with meal. Stack with Genius Burn for optimal results.

WARNINGS: Consult your physician prior to using this product if you are pregnant, nursing, under 18 years of age, taking medication or have a medical condition. Immediately discontinue use and contact your physician if any adverse reactions occur. Keep out of reach of children. Store in a cool, dry place away from excessive heat. Do not consume other caffeine products when taking this product. Do not consume at bedtime as caffeine can cause insomnia.
