

GENIUS MUSCLE builds muscle by scientifically engineering the optimization of every aspect required for muscle growth with measurable results.* Our 100% transparent formula contains superior ingredients with 10+ clinical studies. PeakO2® elevates peak power output, improves VO2 max/economy and extends time-to-exhaustion for maximum power output and peak strength workouts.* Mediator® Phosphatidic Acid (PA), a patented ingredient, shown in a university study to provide double the muscle mass gain, increased strength and double the fat loss in individuals engaged in weight bearing exercise and who consumed adequate protein.* myHMB® is the powerful combination of HMB (β-hydroxy-β-methylbutyrate) and Vitamin D3. These nutrients have been shown to work synergistically to promote muscle health, improve lean muscle mass gains and increase muscle function.* HMB is a metabolite of the amino acid leucine known for its ability to enhance protein synthesis, thus promoting muscle growth.* Through effort in the gym and GENIUS MUSCLE, real results can be earned!

DIRECTIONS: On workout/training days, mix 1 scoop with 12 ounces of cold water and consume 45 minutes before training. On non-training days, mix 1/2 scoop with 6 ounces of water and consume first thing in the morning on an empty stomach. For more information on stacking products, please visit TheGeniusBrand.com.

WARNINGS: Do not exceed recommended dose. Not intended for use by persons with a medical condition. Consult your physician before using this product if you are pregnant or nursing, or taking any medication. Do not use if you have high blood pressure or heart problems or are contemplating becoming pregnant. KEEP OUT OF REACH OF CHILDREN. STORE IN A COOL, DRY PLACE.
