Liquid vitamin D Supplement

If you have any questions concerning your child's supplement needs, please consult your child's physician.

The American Academy of Pediatrics (AAP) recommends using a vitamin D supplement for exclusively and partially breastfed babies because of the low average levels of vitamin D in breast milk.

D-VITE Drops provides essential vitamin that helps your baby's body absorb calcium for strong bones and teeth.*

D-VITE Drops complements your breast milk to help provide optimal nutrition for your baby.*

One daily dose of D-VITE Drops has Vitamin D with bubble gum flavored.

D-VITE Drops is sugar-free, gluten-free and lactose-free.

* This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
