† Percent Daily Value not established.

Other Ingredients: Candelilla Wax, Sunflower Lecithin, Modified Food Starch, Carrageenan, Glycerin, Gelatin, Purified Water, and Annatto.

INDICATIONS AND USAGE: TriStart™ FREE is a dietary supplement indicated to provide vitamin, mineral and DHA supplementation throughout pregnancy and in the postnatal period.

CONTRAINDICATIONS: TriStart™ FREE should not be used by patients with a known history of hypersensitivity to any of the listed ingredients.

PRECAUTIONS:

General: TriStart™ FREE is not recommended for and should not be given to patients receiving levodopa because the action of levodopa is antagonized by pyridoxine.

Folic Acid: Administration of Folic Acid alone is improper therapy for pernicious anemia and other megaloblastic anemias in which vitamin B12 is deficient. Folic acid in doses above 0.1 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurologic manifestations remain progressive.

ADVERSE REACTIONS: Adverse reactions have been reported with specific vitamins and minerals, but generally at levels substantially higher than those contained herein. Iron, even at the usual recommended levels, has been associated with gastrointestinal intolerance in some patients.

Contact your doctor for medical advice about side effects. You may report side effects or obtain product information by calling Carwin Pharmaceutical Associates, LLC at 1-844-700-5011.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. KEEP THIS PRODUCT OUT OF REACH OF CHILDREN. In case of accidental overdose, call a doctor or poison control center immediately.

DOSEAGE AND ADMINISTRATION: Take one (1) softgel daily, or as directed by a healthcare practitioner.

HOW SUPPLIED: TriStart™ FREE is available as an oval, annatto softgel capsule with an etched imprint "FREE". Supplied in a carton unit dose pack of 30 (3) child-resistant blister cards of 10 softgels each) 15370-270-30.

Store at 20°–25° (68°–77°F); excursions permitted to 15°–30°C (59°–86°F) [See USP Controlled Room Temperature]. Protect from light, moisture and heat.

Made with Vitashine™ - a plant-derived Vegan D3 made from Ulien E extract.

Ally's DHA® is a vegetarian source of Docosahexaenoic Acid (DHA).

Quatrefolic® is a registered trademark of Gnosis, SpA. Covered by one or more claims of U.S. Patent # 7,947,662 CAS# 1181972-37-1

KEEP THIS PRODUCT OUT OF REACH OF CHILDREN
