

10 mg Melatonin to Promote Restful Sleep and More.†

Melatonin exists naturally in the human body and is involved in setting mammalian circadian rhythms. By setting our "internal clock," supplemental melatonin may benefit those who have disruptive sleep for a variety of reasons.† Additionally, frequent travelers may find melatonin useful in helping to normalize sleep schedules.† By promoting a more restful sleep, fatigue may also be reduced.† Our Melatonin 10 mg tablet is ideal for those looking for a high dosage option.

Caution: Do not exceed recommended dosage. Use only at bedtime. Do not use if pregnant or nursing. Regular dosage for individuals of any age should be limited to two weeks. If less than 40 years old, do not use regularly for any purpose except on advice of a health care practitioner. If you have diabetes, an autoimmune, endocrine, depressive, or seizure disorder, consult your health care practitioner before use. Do not drive or operate machinery while taking this product. Not intended for use by children under age 18.

Store in a cool, dry place.
