Syntol KIDS

Dietary Supplement

Kids Daily Probiotic

Supports Young Immune Systems

Maintains Healthy Digestion

3 Billion Active Cultures

Free of Sugar and Artificial Sweeteners

SYNTOL KIDS provides 3 billion CFUs of viable probiotic bacteria, including the widely studied and supported strain *Lactobacillus rhamnosus* GG. This synbiotic formula includes a prebiotic to help support the growth of both supplemented and natural probiotic bacteria. It also includes immune-boosting vitamins to support the unique needs of developing children. **SYNTOL KIDS** is natural berry flavored and dissolves instantly under the tongue.

DIRECTIONS: For best results, empty entire contents of stick directly under the tongue. This great-tasting formulation is designed to dissolve instantly and effortlessly. Take one stick daily between meals to support digestive and immune health. To alleviate occasional digestive distress, take one stick between meals, two times daily.

FREE OF SUGAR, DAIRY, GLUTEN, AND SOY.

SYNTOL KIDS was formulated with the specific needs of children in mind. As children develop, their immune and digestive processes must adapt to changes in their diet and environment, as well as combat illness. These sudden and often frequent changes can wreak havoc on the digestive and immune systems without a balanced gut microbiome. Introducing healthy probiotics at an early age helps to support a balanced and healthy gut microbiome, where the majority of a child's immune system development takes place.

NATURAL BERRY FLAVOR
