

The *force* of Nature

Turmeric has been shown to help maintain a healthy inflammation response and is one of the most studied botanicals in modern science.* The full spectrum of beneficial compounds found in Turmeric Force is delivered using a supercritical extraction, whole-food approach to herbal supplementation. Turmeric also supports **cardio and liver health.*** New Chapter uses no harsh chemical solvents to deliver a super-pure, super-potent herbal extract.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter delivers the wisdom of **whole food.** Using only chemical solvent-free methods, including supercritical CO₂ extraction, our natural Force extracts guarantee the fullest spectrum of beneficial phytonutrients in their natural profile.
