FRESH UPGRADE: POTENCY PROVEN
Established levels of active marker compounds with NO standardized extracts, fillers, preservatives or other adulterants.

We Start and End with Whole Herb
Freeze-drying keeps the plants' nutrients in the same balance as found in nature by gently removing only the water. From farm to bottle, we use naturopathic wisdom and innovative processes to create exceptional products. We organically grow or sustainably wildcraft herbs that are harvested at peak potency, and then freeze-dried in-house. The closest thing to an herb picked fresh from your garden. Nothing added and no extracts – simply whole herbs.
