

Pea & Hemp Protein Supports Lean Muscles & Good Health*

Balanced Plant Protein Blend provides a complete and naturally balanced protein source for supporting good health.[†] Protein is a part of every cell in the body and helps to build and maintain connective tissues, bones, blood cells, skin, muscles, organs, and genetic material like DNA. Pea and Hemp proteins complement each other to offer easily digestible and assimilated branched chain and essential amino acids providing lean protein in this unique formulation for a smooth, non-gritty and delicious powder.[†]

This "Field Grown Protein" is a natural source of alkalizing plant-based supplementation to support daily activity.[†] Diets with lean protein may support satisfaction after eating to assist with maintaining a healthy weight.[†] Pea protein is considered a "faster" bioavailable protein as it does not aggregate to form a larger protein network in the stomach like "slower" dairy protein such as casein.[†] Pea protein is also naturally rich in arginine to support muscle density.[†] Hemp protein contains 20 amino acids, including all essential amino acids, making it a perfect alternative to soy and dairy protein.

Typical Amino Acid Profile per serving (will vary based on harvest):

Isoleucine**	735 mg	Arginine	1,268 mg
Leucine**	1,344 mg	Aspartic acid	1,848 mg
Lysine*	1,155 mg	Cysteine	189 mg
Methionine*	189 mg	Glutamic acid	2,218 mg
Phenylalanine*	736 mg	Glycine	638 mg
Threonine*	585 mg	Histidine*	483 mg
Tryptophan*	147 mg	Proline	735 mg
Valine**	819 mg	Serine	846 mg
Alanine	672 mg	Tyrosine	369 mg

* Branched Chain Amino Acid

** Essential Amino Acids
