

Natural Vitamin E is an essential nutrient and is the body's primary, fat-soluble antioxidant. It helps fight cell-damaging free radicals that cause oxidative stress in the body, which may contribute to the premature aging of cells. Vitamin E provides nutritional support for the immune system. It is also an essential nutrient for many cells, including heart muscle cells. This formulation provides natural Vitamin E in a dry (non-oily) form, for those who have difficulty digesting fats or oils. It is offered in a convenient, two-piece, vegetarian capsule.*

This product contains 268 mg of Vitamin E, which is equivalent to 400 IU.

Carefully Manufactured by:
Solgar, Inc., 500 Willow Tree Road
