

TRUTH

We pledge total truth in labeling. Our family of products contains only the purest and most potent ingredients. **Guaranteed.**

Nattokinase is a fibrinolytic enzyme produced from Natto, a Japanese fermented soy product. The Nattokinase in this formula has high enzyme activity providing 20,000 fibrin units (FU) per gram and does not contain Vitamin K. The Plus in this formula is the inclusion of another fibrinolytic enzyme, Serratiopeptidase with Rutin, a flavonoid that acts as a free radical scavenger to support capillary strength and vascular health.*

Warning: If pregnant, nursing, or have blood-clotting disorders or are taking anti-coagulant medications such as Coumadin (Warfarin), do not take this product without consulting your healthcare professional.

Keep out of reach of children. Store in a cool, dry place.
