

Coenzyme Q-10 (as ubiquinone) performs several important health supporting roles in the body. Ubiquinol (the reduced form of CoQ-10) provides advanced antioxidant support.* By supplementing with Ubiquinol, you are providing your body with a form of CoQ-10 that is in a ready-to-use state to fight free radicals.* Free radicals can cause oxidative stress which may damage cells.* Solgar® Kosher Ubiquinol 100 mg is offered in oil-based softgels to ensure optimal absorption and assimilation.
