- 21 Day Liver Detox System*
- For Competitive Athletes
- 4 Key Antioxidants*

DIETARY SUPPLEMENT

42 CAPSULES • 21 DAY SUPPLY

THE ULTIMATE LIVER D-TOX™*

The human liver is considered by many to be the most crucial organ. It is responsible for cleansing blood, protein synthesis, biochemical production, glycogen storage and even plays a major role in metabolism.*

Liver D-TOX™ is a combination of clinically proven herbal extracts in their purest form along with powerful Vitamin Antioxidants such as Vitamins C & E, Selenium and NAC (N-Acetyl-Cysteine).*

The Milk Thistle Extract (MTE) that we have sourced is not only standardized for 80% Silymarin, but also standardized for the lesser known, but highly potent 30% Silybin content. MTE is widely known for its proven ability to reduce liver hepatotoxins and is often employed to ensure a return to a cleansed state.*

ALLMAX® has sourced a 95% pure Curcumin Extract renowned for its potent detoxification and antioxidation functions. Artichoke Extract at 5% Cynarin has been included for its hepaprotective function. Katuka Extract has a centuries long tradition in Ayurvedic medicine as a liver tonic.*

As athletes, we put our livers through a lot. We depend heavily on it for everything from protein digestion to blood toxin cleansing. If you want to perform at the highest levels, you owe it to yourself to do a 21-Day Liver D-TOX™.
