Other Ingredients: Gelatin, Glycerin, Purified Water, Beeswax, Soy Lecithin, FD&C Blue #2 Lake, Titanium Dioxide, Ethyl Vanillin.

DESCRIPTION: VP-PNV-DHA is a prescription regimen of prenatal multi-vitamin, multi-mineral, and omega-3 fatty acid supplements and should be administered under the supervision of a licensed medical practitioner.

DOSAGE AND ADMINISTRATION: 1 softgel capsule daily, or as prescribed by a licensed medical practitioner regardless of lactation status.

CAUTION: Ingestion of more than 3 grams per day of omega-3 fatty acids (ALA, EPA, and DHA) may have potential antithrombotic activities, or effects, and may increase bleeding times. Administration of omega-3 fatty acids, including DHA, should be avoided in patients with inherited or acquired bleeding diathesis, including those taking anticoagulants. Exercise caution to ensure that the prescribed dosage of DHA does not exceed 1 gram (1000 mg) per day.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

CAUTION: High levels of folic acid may, especially in older adults, hide signs of Vitamin B-12 deficiency (such as pernicious anemia), a condition that can cause nerve damage.

Call your licensed medical practitioner about side effects. You may report side effects by calling Virtus at 1-888-848-3593 or FDA at 1-800-FDA-1088.

HOW SUPPLIED: VP-PNV-DHA is supplied as oval, dark blue softgel capsule imprinted with "V223" dispensed in boxes of 30 capsules (10 x 3 blister packs).

Store at controlled room temperature 20°-25°C (68°-77°F). [See USP]. Protect from light and moisture. Notice: Contact with moisture may produce surface discoloration or erosion.

Contains Fish Oil and Soy.
