EVOGREENS™ was designed specifically to address the needs of physique athletes that train hard. The goal was to provide strategically selected ingredients to not only help detoxify and nourish the body, but to accelerate overall recovery and wellbeing in a manner other “super food” products cannot. Our goal was to reset the perspective on functional “greens” products, and we accomplished that with EVOGREENS.

This isn't another “kitchen sink” greens product with 60-70 underdosed ingredients. Everything in EVOGREENS serves a purpose directly related to helping your physique recover and detoxify from the everyday grind and training with your health in mind. We even took it a step further and included potent and shelf stable probiotics that not only support immune health, but more importantly the well-being of your GI tract. This helps ensure the macro and micronutrients elements of your diet get absorbed properly.

DIRECTIONS: As a dietary supplement, mix 1 scoop with 10-12 fluid ounces or more of cold water, juice or your favorite beverage. Stir briskly or shake briefly in a closed container until mixed. We recommend 1 to 3 servings daily.

PROPER CARE & STORAGE: EVOGREENS contains natural, healthful organic plant-based ingredients. Please store EVOGREENS in your refrigerator **after** opening.
