Manufactured by:

SFI USA

Reno, NV 89521

Klaire.com

Caution: If you are pregnant, nursing, have a medical condition, or taking prescription drugs, consult your healthcare professional before using this product. Use of high daily amounts of niacin, particularly in delayed-release forms, may produce a temporary elevation in liver enzymes. It is recommended to have your liver enzymes monitored by your doctor if taking this product long-term. Keep out of reach of children.

Free of the following common allergens: milk/casein, eggs, fish, shellfish, tree nuts, peanuts, wheat, gluten, soybeans, and corn. Contains no artificial colors, flavors, or preservatives.

Suggested Use: 1 tablet daily with food or as directed by a healthcare professional.

Niacin-SR provides pure niacin in a sustained-release matrix that releases slowly over several hours. Slow release of niacin helps minimize the uncomfortable flushing action of this B-vitamin that may occur when high-potency amounts are ingested.

Do not use if shrinkwrap is broken or missing. Store in a cool, dry place (59F-85F) away from direct light.

Produced under a strict quality management system in compliance with Good Manufacturing Practices (GMPs) and third-party quality certifications.
