FACTS ABOUT HEALTHY 'N FIT[®] 100% EGG PROTEIN

ADDED EGG WHITE PEPTIDE AMINO ACIDS

FACT - HEALTHY 'N FIT[®] 100% Egg Protein is derived from Natural 100% Pure Egg White Protein and is the only formulation with the added benefits of Natural Hydrolyzed Egg White Peptide Amino Acids, very high in BCAAs and Essential Amino Acids for faster and more efficient Amino Acid absorption and utilization. In addition, **HEALTHY 'N FIT[®] 100% Egg Protein** contains no fillers as found in other brands and is the Purest and Cleanest Protein/Amino Acids source available. Today many brands go out of their way to call their products "pure" and "clean," even though right on their packaging it states they contain artificial ingredients. These types of inaccuracies and misinformation send up red flags for many who are concerned about what other inaccuracies these brands have with other claims they make, and with the overall quality and effectiveness of their products. **HEALTHY 'N FIT[®] 100% Egg Protein** is truly the Purest, Cleanest and Most Effective protein formulation available.

LAB TESTED FOR PURITY

FACT - The facts prove that **HEALTHY 'N FIT[®] 100% Egg Protein** is superior to Whey Protein, and is the highest quality, most effective Protein/Amino Acids source that exists providing Advanced Maximum Nutritional Support for maintaining, repairing, and building lean muscle, strength and more. The quality and potency of **HEALTHY 'N FIT[®] 100% Egg Protein** is laboratory tested and assayed. **HEALTHY 'N FIT[®] 100% Egg Protein** has the highest NPU, Chemical Score and PER of all proteins, including whey protein. NPU (Net Protein Utilization) is a renowned and proven scientific method for rating the quality and effectiveness of proteins and how well the human body can utilize that protein. Chemical Score is an advanced methodology determining a protein's quality and effectiveness based on its amino acid profile. **HEALTHY 'N FIT[®] 100% Egg Protein** is considered a nearly perfect source of protein because its amino acid profile most closely matches that needed by the human body.

SUGGESTED USE: Stir approx. 3/4 scoop into 6-8 oz. of water, juice, milk, almond milk or the liquid of your choice (mixing with milk or almond milk will make the shake thicker and creamier). Use once or twice daily between meals or after workouts to add the highest quality and most effective protein to your diet. You can also add our 100% Egg Protein to oatmeal, muffins, pancakes, shakes and more, only your imagination limits the vast array of its uses.
