

Each Tablet Contains: 2.2 mg Folic Acid, 25 mg Vitamin B-6 (as pyridoxine HCl) and 1 mg Vitamin B-12 (as cyanocobalamin).

Other Ingredients: calcium phosphate dibasic, carnaube wax, citric acid, FD&C blue #2 aluminum lake, FD&C red #40 aluminum lake, FD&C yellow #5/tartrazine aluminum lake, hypromellose, magnesium stearate, microcrystalline cellulose, modified food starch, polyethylene glycol, polysorbate 80, silicon dioxide, sodium citrate, sodium starch glycolate, stearic acid and titanium dioxide.

Contains color additives including FD&C Yellow #5 (tartrazine).

Precautions: Folic Acid in doses above 0.1 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurological manifestations remain progressive.

This product contains FD&C Yellow # 5 (tartrazine) which may cause allergic-type reactions (including bronchial asthma) in certain susceptible persons. Although the over-all incidence of FD&C Yellow # 5 (tartrazine) sensitivity in the general population is low, it is frequently seen in patients who also have aspirin hypersensitivity.
