

"When the blood in your veins returns to the sea, and the earth in your bones returns to the ground, perhaps then you will remember that this land does not belong to you, but it is you who belong to this land."

- Anonymous

It breaks my heart to see how our families and our children struggle with fatigue, brain fog, mood issues, infertility, and autoimmunity. Is this the new normal that will become our future? Why have we forsaken the vitality that is our birthright and accepted this suffering as inescapable?

I believe with all my soul that the solution is nose to tail nourishment. It starts with the soil and regenerative practices that heal the land, love, and nourish our animals so that we may be deeply nourished in turn. When we honor and consume animals nose to tail, we receive all of the nutrients needed to thrive, in the most bioavailable forms.

This is my passion, my purpose, my entire heart & soul. Let me show you a brighter future. Visit us online at www.heartandsoil.co to start your journey today.

Paul Saladino, M.D.
