ZERO ARTIFICIAL FLAVORS

Proper Dosage:

CBD is a very unique ingredient, in that it works with very small amounts. Certain effects can be met with as little as a few milligrams, so it is best to start with a small dose and slowly increase as needed. Taking too much was actually shown in many of the studies to lessen the effect of the ingredient.

- For half dose (5mg), cut a CBD strip in half.
- For a quarter dose (2.5mg) cut a CBD strip into quarters.

Suggested Use: For best results, allow strip to fully dissolve on tongue, swish fluid throughout entire mouth for 30 seconds making sure to pass fluid under tongue.

Supplement Facts

Serving Size: 1 Strip
Servings per Container: 10

	AMOUNT PER SERVING	%DV
Cannabidiol (CBD)	10mg	†

† Daily Value (DV) not established

Other Ingredients: Sodium Alginate, Cellulose Fiber, Tapioca Starch, Sorbitol, Medium Chain Triglycerides, Stevia, Water (moisture), Glycerine, Glycerol monostearate, Natural Peppermint flavor, sodium copper chlorophyllin

The CBD Strip Advantage:

- Sublingual application for fast absorption
- Easy to carry cassette, (take it anytime)
- Evenly distributed CBD, for half dose (if needed)

Why We Choose Full Spectrum...

There are over 80 cannabinoids in the hemp plant, and Cannabidiol, or CBD, is just one of those. We only use Full Spectrum because the entourage effect allows it to be more effective than a CBD isolate. Scientists have well established, through numerous studies, the "entourage effect" of all the cannabinoids and terpenes working together.

Naturally Occurring: CBDV, CBN, CBG, CBG-A, CBC, CBD-A, and as many as 40 different terpenes.

This product contains no: Egg; Fish & Shellfish; Gluten from Wheat, rye, oats, or barley; Milk (including lactose); Peanuts; Tree nuts; and Soy.
