

TRI ACTIVE BIOTICS IMMUNE CARE

FOR IMMUNE SUPPORT & DIGESTIVE HEALTH

Black Elderberry

Black Elderberry has numerous positive studies for its antibacterial and antiviral activity. It was found to be active against human pathogenic bacteria as well as influenza viruses. Organic ElderMune™ was chosen for its higher potency (65:1), and superior processing/testing methods.

Sunfiber® is blended to replace the fiber that is lost in the elderberry juicing process. It also supplies the prebiotic and postbiotic functions, supporting the production of short chain fatty acids acetate, propionate, and butyrate. These help restore the epithelial lining, in the intestines.

- This product was manufactured in a GMP approved facility.
- These statements have not been evaluated by the FDA. This product is not intended to prevent, treat or cure any disease. The efficacy of this product has not been confirmed by clinical research, and traditional uses do not establish that this product will achieve any claimed result.

TRI ACTIVE BIOTICS

IMMUNE CARE

FOR IMMUNE SUPPORT & DIGESTIVE HEALTH

- 6 Billion CFU Before Multiplication*
- 16 Strains of Shelf Stable Probiotics*
- 5 Times more effective with Microencapsulation*
- ElderMune™ Immune Support*
- Includes Sunfiber® Prebiotic/Postbiotic Blend*

Our Immune Care blend of 16 unique probiotic strains, are microencapsulated, which ensures they are 100% viable. Our formula was chosen for its affinity for producing antibacterial and antiviral activity, as well as supporting overall immunity and digestion. This probiotic blend has also been clinically proven to colonize and adhere to intestinal walls 5 times better than typical or uncoated strains. (See website for study references)

≥

6 Billion CFU of TriActive Biotics Immune Care, is greater than or equal to 30 Billion CFU of uncoated strains!
