

Meta I3C® is designed to promote healthy estrogen metabolism and balance by featuring indole-3-carbinol (I3C), a nature-identical version of the compound found in cruciferous vegetables such as broccoli, Brussels sprouts, and cabbage. Through its ability to promote the breakdown of estrogen to its beneficial, protective metabolite—2-hydroxyestrone—indole-3-carbinol may be a safe and effective way to help achieve beneficial balance in estrogen metabolism.*

Directions: Take one capsule twice daily with food or as directed by your healthcare practitioner.

This product is gluten-free and vegetarian.

Caution: Not recommended for pregnant or nursing women.

If taking medication, consult your healthcare practitioner before use. Keep out of the reach of children.
