

SpectraZyme® Gluten Digest, featuring Tolerase® G, is a targeted protease enzyme supplement that has been clinically shown to help digest gluten in humans as well as in gastrointestinal and in vitro models. This formula helps promote the breakdown of gluten proteins in the stomach which may help support healthy digestion of wheat, barley, rye, and other sources. Human studies also indicate that Spectrazyme® may help break down gluten proteins before they reach the small intestine, a key consideration in healthy digestion.*

Visit SpectraZyme.com for additional information.

Directions: Take 2 capsules with each meal or as directed by your healthcare practitioner.

This product is non-GMO, vegetarian, and gluten-free.

Caution: If pregnant or nursing, or taking medication or other nutritional supplements, consult your healthcare practitioner before use. Keep out of the reach of children.

Notice: Tolerase® G is not intended to replace a gluten-free diet. Tolerase® G is not intended to treat or prevent celiac disease.

Storage: Keep tightly closed in a cool, dry place.
