

SCIENTIFICALLY VALIDATED

FertilityBlend® for Women

FertilityBlend® for Women is a scientifically validated nutritional blend that helps enhance fertility health. *Vitex agnus-castus* (chasteberry herb) supports proper hormone balance and normal ovulation. The antioxidants – green tea, vitamin E and selenium, support reproductive health. The amino acid L-Arginine helps maintain a healthy uterine lining. Vitamins B6 and B12, folic acid, iron, magnesium and zinc, help promote fertility health and pregnancy outcome. Adequate amounts of folic acid may reduce the risk of neural tube birth defects when consumed as part of a healthy diet - before and during early pregnancy.*

Recommended Use: As a dietary supplement, take a total of 3 capsules daily. If possible, it is best to spread the dosage out throughout the entire day. Use for at least 3 menstrual cycles before expecting a significant benefit to fertility health. Can be taken for as long as needed to get pregnant. You may want to have your partner take *FertilityBlend® for Men*. Check with a doctor after 6-12 months without success. Do not take with Clomid or other fertility drugs. Discontinue use once pregnancy has been confirmed by a doctor.

Caution: For adults only. For those with any pre-existing medical conditions, please consult a doctor before use. Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children. Keep out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately. Keep bottle tightly closed in a cool, dry place. Do not use if tamper-evident seal is missing or broken.
