MASS-TECH® - The Scientifically Superior Mass Gainer

New MASS-TECH® is an advanced muscle mass gainer designed for any individual who has a tough time adding size, is in their bulking phase or wants to break through their strength plateaus. Power-packed with 80g of protein and 1,000 mass-producing calories when mixed with 2 cups of skim milk, this potentially superior formula is also enhanced with a proven anabolic driver for rapid mass and strength gains!▲

•Better Quality Calories Designed for the Hardgainer

MASS-TECH® is a powerful and scientifically superior weight gainer designed to be taken twice daily. The new, powerful formula now delivers a massive 1,000 calories (when mixed with 2 cups of skim milk) derived from high-quality protein and quickly digested carbohydrates.▲

•More Protein Per Serving Than Other Weight Gainers

The new and improved formula features an 80g multi-phase protein system (when mixed with 2 cups of skim milk), which supplies fast- and slow-digesting proteins. The multi-phase protein system provides critical amino acids to the body at varying speeds.▲

•More BCAAs and L-Leucine Per Serving Than Other Weight Gainers

The formula's protein dose supplies a massive 8.4g of L-leucine and 17g of BCAAs (when mixed with 2 cups of skim milk), which helps fuel your skeletal muscles, preserve muscle glycogen stores and reduce the amount of protein breakdown.▲

•Build More Strength

Unlike other leading gainers that contain little to no creatine, MASS-TECH® delivers a 10g clinically validated dose to increase strength fast.▲

•Helps Replenish Glycogen Stores

Supplies 157g of carbohydrates (when mixed with 2 cups of skim milk) through a multi-phase carb complex to both spike insulin, quickly shuttling creatine into the muscle, and promote muscle glycogen replenishment, helping to put the body into an anabolic state.▲

BASED ON RESEARCH AT
A LEADING AMERICAN UNIVERSITY

TEST SUBJECTS RAPIDLY
ADDED MASS!▲

▲ An 8-week study examined the addition of 2,000 calories (over 2,000 calories are found in 2 servings of MASS-TECH®) to a diet of 2,000 calories. The new, powerful formula now delivers a massive 1,000 calories (when mixed with 2 cups of skim milk) derived from high-quality protein and quickly digested carbohydrates.▲

TEST SUBJECTS INCREASED
CHEST & ARM SIZE!▲

In the same study noted above, test subjects also gained muscle size when 8 meters more. Despite their chest and arms. They gained 1.2 in. on the chest and 0.5 in. on their arms versus the control group, who only added 0.5 in. and 0.2 in.▲

Other Ingredients: Multi-Phase Carb Complex (Maltodextrin, ModCarb™ [Oat Bran, Quinoa, Buckwheat, Millet], Isomaltulose), Multi-Phase Protein System (Whey Protein Concentrate, Calcium Caseinate, Egg Albumin, Whey Protein Isolate 97%, Hydrolyzed Whey Protein Isolate, Whey Protein Isolate), Natural and Artificial Flavors, Calcium Carbonate, Soy or Sunflower Lecithin, Chocolate Cookie Crumbs (Rice Flour, Sugar, Tapioca Starch, Palm Oil, Cocoa [Processed with Alkali], Corn Starch, Salt, Chocolate Liquor, Natural Flavor, Sodium Bicarbonate, Soy Lecithin), Acesulfame-Potassium, Gum Blend (Cellulose Gum, Xanthan Gum, Carrageenan), Enzyplex (Papain, Amylase), Sucralose, Medium Chain Triglycerides. Contains milk, soy, egg and coconut ingredients. Processed in a facility that also processes peanuts, tree nuts, fish/crustaceans/shellfish and wheat ingredients.

Directions: Mix 1 serving (5 scoops) with 16 oz. (2 cups) of water or skim milk and consume 2 times daily. Use a blender for best results. Take in the morning, between meals or post-workout. Read the entire label before use and follow directions provided. Drink 8 to 10 glasses of water daily for general good health.

WARNING: Not intended for use by persons under 18. Do not use if pregnant or nursing. Consult a medical doctor if you have a medical condition or before starting any diet or exercise program. **KEEP OUT OF REACH OF CHILDREN.**

This product contains 10g of creatine monohydrate per serving, which is in addition to the 63g of protein per serving shown in the Supplement Facts. Creatine is not counted toward the total amount of protein in this product.

Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F).

▲ These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
