HOW DOES MOVE FREE® WORK?

Move Free® Advanced supports 5 signs of joint health: mobility, flexibility, strength, lubrication and comfort.

Glucosamine:

Glucosamine is key for the formation of cartilage and supports mobility and flexibility.*

Chondroitin:

Chondroitin is a building block of cartilage that supports joint strength.*

Uniflex®:

Uniflex® is a clinically tested mineral complex that supports joint comfort in as little as 2 weeks!*

Joint Fluid (or Hyaluronic Acid):

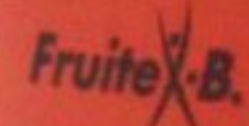

Hyaluronic Acid is the same molecule found in healthy joint fluid that supports joint lubrication and smooth movement.*

Move Free® Advanced Plus MSM also provides extra cartilage support:

Methylsulfonylmethane (MSM):

MSM is a source of sulfur found in the body that is important in the formation of collagen in joints which support the structure of cartilage. Also, the amount of MSM found in this formula is the tested amount shown to support joint comfort.*

*J Aging Res Clin Prac 2014;3(4):223-228.

FruiteX-B® Calcium Fructoborate is a registered trademark of VDF FutureCeuticals, Inc. FruiteX-B® Calcium Fructoborate is manufactured under US Patent #5,962,049 and pending foreign patents. Used under license from VDF FutureCeuticals, Inc.
