

GLUTATHIONE PROMOTER / SELENIUM strengthens your immune system's response to viruses and bacteria. Infections cause oxidative damage in the body, whereas glutathione counteracts this damage. Glutathione is rapidly digested when taken orally, so the stable, limiting precursor of glutathione, N-acetyl L-cysteine, is provided. Vitamin C, vitamin E, zinc, selenium and alpha lipoic acid also boost glutathione levels and reduce oxidative damage.

SUGGESTED USE: Take 1 capsule twice a day with meals, or as directed by a health care professional. Store with cap tightly closed in a cool, dry place.
