

Directions: As a dietary supplement, take one liquid-filled capsule daily, preferably before exercise, or as directed by a healthcare practitioner.

Bluebonnet's L-Carnitine 500 mg Licaps contain free-form L-carnitine, which is the purest source of this ergogenic amino acid in the marketplace today. Since vegetarian-sourced carnitine is identical to what is found in the body and has been encapsulated in revolutionary, easy-to-swallow, liquid-filled capsules (Licaps®) for maximum assimilation and absorption, it is more bioavailable to help transport fat to muscle for immediate energy, stamina and endurance. Plus, this highly-concentrated L-carnitine has been micronized and solubilized in a clear, free-flowing liquid to more quickly metabolize fat into energy for optimal performance.♦

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.

Made in USA from domestic and imported ingredients.
