

SR® ORGANIC MCT OIL is derived exclusively from Organic Coconuts without the use of chemicals or hexane. Packed with energy-dense fatty acids, Medium Chain Triglycerides (MCTs) are quickly digested, absorbed and converted into ketone bodies, which are used as fuel for the brain and body in individuals following a ketogenic, low-carb lifestyle.* **SR® ORGANIC MCT OIL** is composed of Caprylic (C8), Capric (C10) & Lauric (C12) fatty acids and can easily be added to any food or drink without altering taste.
