

Directions: Take 40 or more drops under the tongue or in juice/yogurt daily.

Chag-Immune is the power of raw, wild emulsified chaga mushroom. The chaga mushroom is a rich source of betulin and betulinic acid, which are natural sterols of high electrical charge and are needed by cell membranes. The sterols in chaga are heart-healthy.* Chag-Immune is also a top source of SOD (superoxide dismutase).
