

Directions: Take one (1) capsule daily, or as directed by a healthcare practitioner.

Warning: Individuals taking medication, children and pregnant or lactating women should consult their healthcare practitioner prior to use. Do not use if tamper seal is damaged.

OncoProtect™ is an advanced antioxidant formula containing both glucoraphanin and active Myrosinase enzymes in a delayed release capsule. Utilizing a patented process, **Glucoraphanin** (from **truebroc®**) is extracted from broccoli seeds to provide a potent source of bioavailable Sulforaphane (SFN). Published in over 500 journal publications since 1992, research shows SFN plays a vital role in antioxidant activity and is key to the production of detoxification enzymes in the body. When combined with **Myrosinase** (an activator of Sulforaphane), this powerful formula provides efficient and long-lasting support for the body's detoxification processes while promoting optimal cellular health.*

Storage: Keep tightly closed in a cool, dry place. Keep out of reach of children.

Formulated to Exclude: Fillers, gluten, wheat, soy, corn, yeast, animal or dairy products, shellfish, fish, peanuts, tree nuts, egg, ingredients derived from genetically modified organisms (GMO's), preservatives, artificial sweeteners or colors.
