

Directions: As a dietary supplement for adults, take one (1) softgel two (2) times daily with a meal, or as directed by a physician.

The Vitamin E family is comprised of eight chemically distinct compounds: four tocopherols and four tocotrienols — alpha, beta, gamma and delta. Tocotrienols differ from tocopherols by having an unsaturated side tail which results in significantly different biological activities.*

Tocomin SupraBio™ has been the subject of clinical trials for skin, brain and cardiovascular health.*

Caution: Consult a physician before use if you are pregnant, nursing, taking medication or have a medical condition.

EVNol SupraBio™ is a trademark of ExcelVite, Inc.
