Directions: Take one or more capsules daily with or without meals.

ChagaMax is the power of wild, raw chaga mushroom fortified with wild, raw birch bark and handpicked wild oregano. This combination creates immense synergy and potency. These wild, powerful foods are top sources of key substances needed for human health: plant sterols and antioxidants. Chaga is the richest source of the all-important enzyme superoxide dismutase (SOD), plus it is a natural source of beta glucan and B vitamins. Testing shows that the superoxide radical-quenching power of ChagaMax is extremely high. The wild oregano greatly fortifies the chaga. Take ChagaMax capsules daily, and feel the difference.*
