

Propolis is a resinous substance gathered by the bees from certain select trees and used to line the hive to keep the hive sterile and bee colony healthy. Bee propolis is one of nature's richest sources of bioflavonoids and it has been traditionally used for centuries as supports for the immune system.† Certain research publications indicate that Bee Propolis may help support the following:

- Supports cellular regeneration.†
- Supports healthy immune system.†
- Supports healthy inflammatory response.†

SUGGESTED USE: As a dietary supplement, take one (1) capsule one or two times daily preferably with meals.

Keep out of the reach of children.

Do not use if safety seal is broken or missing.

Keep in cool, dry place.
