

Directions: As a dietary supplement for adults, add one (1) scoop daily into your favorite beverage. Stir until thoroughly mixed.

Healthy Origins® Natural Collagen Peptides provides 10 grams of natural, grass-fed, pasture-raised bovine collagen peptides in every scoop.

Collagen is the most abundant protein in your body, and is a major component of your skin, tendons, ligaments, and muscles. Having ample levels of collagen in your body may help to support skin elasticity, cartilage integrity, bone density and muscle mass. Unfortunately, collagen levels begin to decline with advancing age, so supplementing with collagen peptides may help to restore optimal collagen levels in your body.*

Healthy Origins® Natural Collagen Peptides is packaged in the USA using collagen peptides sourced from Brazil.
