

Chitosan is a dietary fiber derived from the shells of crustaceans that has been shown in non-clinical studies to bind to fat and cholesterol in the digestive tract. Chitosan is produced by removing acetyl groups from chitin, through a process called deacetylation. This process enhances the activity of chitosan by improving its solubility in the acidic environment of the stomach.†

CAUTION: For adults only, if you are pregnant, nursing, taking any medications or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.

*Keep out of the reach of children.
Do not use if safety seal is broken or missing.
Keep in cool, dry place.*
